

KEYTON H10

YOUR HOUSE IS GOING TO LOVE THIS ARMCHAIR

Keyton H10 is the first massage chair that offers the possibility of complete personalization of the look. The armchair thanks to its massage arms offers massage in:

7 automatic programs

- **STRESS** - after a stressful day at work, it will calm you down and relax, take off tension from your legs and back, maximally relax
- **SPORT** - Your muscles after training need rest, using this program you will delay their fatigue and facilitate regeneration
- **RELAX** - quench all day, get ready to sleep, forget about fatigue, relax and relax
- **RESTORE** - refresh and regenerate your skin, remove signs of tiredness and relax
- **NECK&SHOULDERS** - relax and take off tension from your neck and shoulders
- **DORSAL&LUMBAR** - work behind the desk is not conducive to good back condition, you will relieve them using a program that focuses on the lower back
- **CELLULIT** - after work, your legs are heavy and sore? Bring lightness back to them - the program will improve blood circulation in the thighs and calves and help to reduce circulatory disorders in the lower limbs

3 massage techniques

- **Massage kneading** - it mimics the movements of the professional massage therapist and stimulates blood circulation
- **Stretching massage** - stimulates the treatment of aching back with regenerating movements of the massage arms
- **Rolling massage** - the essence of Shiatsu massage and perfect preparation for other massage sessions

3 leg massage programs

- **Touch control of 3D leg massage** - massage movements with accidental changes, controlled by an internal microcomputer
- **Variable leg massage** - a variable massage system that works on your feet
- **Variable thigh massage** - a variable massage system that works on your thighs

... moreover, full regulation:

- **5** levels of massage height
- **3** levels of massage width
- **4** levels of intensity of massage techniques
- **3** levels of calf massage strength
- **3** levels of thigh massage strength

The most important distinguishing features of an armchair are:

- **Intelligent scanning of the backbone line** - massage chair marks 128 points on our back so that the massage is as effective as possible
- **"Intelligent" function** - memorizing our preferences regarding the intensity of the massage
- **2in1** - you decide if the chair will be a rest or massage model
- **3D leg massager** - three-dimensional leg massage works on all calf muscles
- **Remote control** - the massage chair using a remote control with batteries, no cables
