### The most important solutions and technologies:

- **Control** – the massage chair can be controlled from the attached one remote control or wirelessly using a mobile application for a phone or tablet
- **Massage in the 3D system with S-Contours** - massage chair uses 3D massage technology, thanks to which the massage arms move with even greater precision, providing a more intense massage experience
- **Leg massager** - a set of rollers and airbags intensively massages the feet, improving blood circulation and removing tension
- **Airbag massage system** - a comprehensive system, using the work of 68 airbags, provides a pleasant massage of the whole body
- **Optimal adjustment** - thanks to the ability to adjust the position of the headrest, arm massagers and foot massagers, you can perfectly match the massage chair to your own needs
- **The air ioniser** - placed next to the headrest, additionally treats the inhaled air with beneficial negative ions

### Additionally:

- **Zero Gravity** - comfortable massage position like in a rocking chair
- **Zero Wall** - the armchair can be maximally pushed to the wall
- **IR heating** based on 40 degrees Celsius
- **Bluetooth** music player and headphones
